

SoCalMLS Is Pleased to Announce Southern California MLS Alliance is Here!

MLS Alliance is a web site which enables you to search for listings in any and all participating MLSs – all at the same time!

No More:

- Searching one system at a time!
- Having to learn different MLS systems!
- Long distance phone calls!

How The MLS Alliance Works, simply go to the MLS Alliance web site (<http://sca.mlsalliance.com>) and log on using your current SoCalMLS Public and Private IDs. Once logged on you will have access to the entire listing databases of all participating MLSs. Not just actives as you find on public web sites – but all statuses, including solds. Because it is a password-protected site, only you, as a member of SoCalMLS, will have access to this area-wide inventory of listing information. For detailed instructions: XMLSweb – ToolKit, Forms & Documents, Access to Outside MLSs, *Southern California MLS Alliance*; Stellar - at Menu type ARTICL20.

MLS Alliance is NOT designed to be a replacement to our current MLS system. It is meant to be a quick way for you to search for listings across MLS boundaries. If you want to add listings to other MLS systems you will continue to submit them just as you do today. However, with MLS alliance, if you add a listing into SoCalMLS that falls within another MLS's jurisdiction, it will be accessible to the members of that other MLS through the MLS Alliance web site.
